The 30 gallon Stainless Steel Aquarium pictured above was set up eight months ago for experimental purposes under home conditions. The gravel guards are specially constructed to give the Terrace effect to better display the plants. All plants are of the original planting and have more than tripled their size. Since the Aquarium sits directly in front of a window, a "Curtain" was placed in the back to reduce the intensity of the Sunlight and Supplemented by Artificial light in the overhead reflector. A Marco "A"

pump supplies Oxygen through the diver and operates the outside filter. A 75 watt heater and thermostat have automatically maintained the water at 74° F. all winter. At the time this picture was taken 72 fish were living happily. The half hour spent each week performing the necessary cleaning operations, and the initial cost are lost by comparison to the many hours of pleasure and enjoyment every day of the year—Now and for years to come.

These plants are pictured above:

Numbered plants in drawing correspond to picture.

1. 3 Bunches Hygrofila (each corner)
2. 8 Cryptocoryne Willisii
3. 8 Cryptocoryne Griffithii
4. 24 Sagittaria Microfilia
5. 2 Dwarf Lilies
6. 1 Southern Spatterdock
7. 1 Amazon Sword Plant
8. 3 Cryptocoryne Beckettii
9. 1 Tropical Spatterdock
10. 4 Cryptocoryne Cordota
11. 3 Ambulia

TERMS EFFECTIVE SEPTEMBER 1, 1947

ORDER EARLY

This is most important—and use Order Sheet, carefully filling in blank places and enclosing payment for full amount of order. Write name and address plainly. To facilitate handling do not write letters on same sheet as orders.

REMITTANCE should be made by Post Office or Express Money Order, Bank Draft, or if more convenient to you, send your personal check.

Include 10% extra to amount of order for Parcel Post Shipment—which will take care of handling and prepaid postage. This applies to Water Lilies, Bog, Floating Shallow Water and Submerged Plants, Collections, Scavengers and Foods and Remedies.

ORDERS FOR \$1.50 OR LESS REQUIRE 15c EXTRA FOR PACKING AND POSTAGE. THIS AMOUNT MUST BE ADDED TO AMOUNT OF ORDER.

HANDLING GOLDFISH ON ARRIVAL. Never allow them to remain in their cans for too long a period or overnight. Before transferring fish to your pool or aquarium, be sure the temperature of water is of no great difference. Best to add some of your water to the can in which fish have been shipped. Use one ounce salt per gallon of water to help heal any injury that was done in shipping. Do not take fish in hands. Use a dip net.

CULTURAL DIRECTIONS. We have printed on small leaflets for your convenience complete cultural directions. One of these will be sent with each order.

GOLDFISH must be sent by express.

We ship Goldfish in this catalog all the year round. When plants are ordered with Goldfish the entire order is shipped via express, charges collect.

Minimum order on goldfish—\$1.00.

No goldfish orders accepted if shipping distance is over 1000 miles.

Complete instructions Page 4.

Empty Fish Cans must be returned at once

Empty cans should be dried out and returned. Failure to return can, we will have to charge you \$2.00 to \$5.00 depending on can. If you do not care to help us—by returning can—please do not order.

Aquariums—aquarium gravel are shipped only by express—shipping charges collect.

DUE TO PRESENT CONDITIONS—PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Bad Order Report

If shipment via express arrives in bad condition accept shipment but be sure to get this Bad Order Report from your express agent—stating loss—condition of shipment and if delayed—stated thereon—**No Claims Considered without this report.** Do not return merchandise without our permission. We still guarantee Live Arrival—but must have your cooperation—in securing necessary papers to file claim.

GUARANTEE

We ship good stock carefully packed. All goods are guaranteed to reach you in good condition. If shipment should arrive in bad condition—be sure to receive a Bad Order Report from the Express Co.—stating condition of package and of fish—condition of water and if delayed stated thereon. Loveland Gold-

fish Farm makes no warranty, expressed or implied, with reference to any merchandise sold by us, except as to certified size and quality, and that all stock shall be true to name and our liability in any case shall be limited to the replacement of such items as are short or damaged.

Goldfish . . .

FOR THE AQUARIUM

"A thing of beauty is a joy forever." The beauty and hardiness of the goldfish have made them an aquatic pet for centuries. Today these same species are still in abundance; still as beautiful in the aquarium. We are sure that you will be more than pleased with our goldfish selections.

COMET TAILS—a variety with graceful long tails. These are the best known of the goldfish.

2 to 3 inch	each 10c	dozen \$1.00
3 to 4 inch	each 15c	dozen 1.25

TELESCOPES—An odd fish with large protruding eyes, velvety black.

2 inch	each 25c	dozen \$2.50
3 inch	each 35c	dozen \$3.50

FANTAILS—These are the best liked of the Fancy Fishes.

2 inch	each 15c	dozen \$1.50
3 inch	each 25c	dozen 2.50

CALICO FANTAILS—Marvelously colored in mottled formation.

2 inch	each 30c	dozen \$3.00
3 inch	each 35c	dozen 3.50

SHUBUNKINS—A thoroughly hardy fish, brilliantly mottled colors, blue, red, and black, white, yellow and brown.

2 inch	each 15c	dozen \$1.50
3 inch	each 25c	dozen 2.50

CALICO NYMPHS—A short heavy bodied fish with comet tails. Colored same as the Shubunkins.

2 inch size	25c	dozen \$2.50
3 inch size	35c	dozen 3.50

ALL GOLDFISH ORDERS ARE SHIPPED VIA EXPRESS

Goldfish Are Shipped By Express

Minimum order \$1.00.

No orders accepted if shipping distance is over 1000 miles.

We guarantee live arrival on all goldfish.

If shipment should arrive in bad condition notify Express office claim department at once! Get a Bad Order Report and mail this to us, together with empty can and we will replace lost fish. Right reserved to replace or refund at our discretion.

Orders for fish up to 25 of the smaller sizes are shipped in small cans which are not to be returned. 35c should be added to your order for this can.

Orders for fish up to 50 of the smaller sizes, a regular shipping can is used. A \$1.00 deposit is required on these cans which must be returned prepaid. Deposit will be refunded. Orders for fish more than 50 are shipped in larger size goldfish cans. A \$3.00 deposit is required on these cans which must be returned prepaid for return of deposit.

WE DO LIKE—SOMETHING THAT IS DIFFERENT—SOMETHING TO BE PROUD TO OWN—WE REGARD THESE TWO PLANTS AS THE MOST MAGNIFICENT OF ALL LARGE AQUARIUM PLANTS.

APONOGETUM CRISPUS

Another magnificent aquarium plant. The somewhat translucent leaves of this striking plant look like green swords with rippled edge.

Price—\$1.00 each

APONOGETUM ULVACEUS

This plant is rated as the most magnificent of all large aquarium plants. The latticed, semi-translucent green leaves are truly beautiful. Comes from Madagascar. Reproduction is mainly from young plants found on bulb like root. Has wonderful growing qualities.

Price—\$2.50 each

IT IS NOT EXPENSIVE TO START YOUR OWN AQUARIUM NOR IS IT DIFFICULT TO KEEP YOUR PLANTS AND FISH HEALTHY. FOR THE LITTLE CARE THEY NEED THEY WILL REPAY YOU MANY TIMES OVER IN ENJOYMENT, EDUCATION AND GREATER ATTRACTIVENESS OF YOUR HOME.

HEALTHY PLANTS PRODUCE OXYGEN WHICH MAKES HEALTHY FISH. ALWAYS OF INTEREST IS SOMETHING NEW OR UNUSUAL. HERE IS A GROUP OF PLANTS THAT ARE UNUSUALLY GOOD.

CRYPTOCORYNE—This plant has many good points in addition to its interesting appearance. It does well in subdued light and the leaves are tough. There are four species. Multiplication is from runners and divisions of the roots.

CRYPTOCORYNE BECKETTII—A dwarf variety of light green foliage.

20c per plant.

CRYPTOCORYNE CORDATA—An attractive plant, top of leaf green, bottom of leaf red—wider than Willisii.

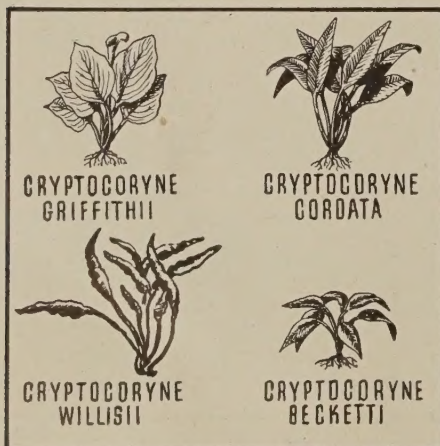

35c each

CRYPTOCORYNE GRIFFITHII—Larger than Willisii, with broad, oval, pointed leaves that are green on top, pink beneath.

75c per plant.

CRYPTOCORYNE WILLISII—A decorative plant which is out of the ordinary. Leaves shaped like terrestrial plant rising from a crown at the surface of the soil. Does well in subdued light.

25c

CRYPTOCORYNE COLLECTION

YOU WILL ENJOY THIS COLLECTION OF AQUATIC PLANTS.

COMPLETE COLLECTIONS AQUATIC PLANTS LISTED PAGE 9

ENJOY NATURAL BEAUTY WITH THESE AQUATIC PLANTS

All you need for equipment is a rectangular glass aquarium of capacity from 2 to 20 gallons, sufficient aquarium gravel or well washed sand to cover the bottom of the aquarium to a depth of two inches.

Plants are the most important of the aquarium equipment. They keep the water in good condition because they release oxygen, and, on the other hand, take up the carbon dioxide given off by the fishes. Plants also serve as a natural refuge for the inhabitants from too much light. They are the first essential of an attractive and well-balanced aquarium, for their utility as well as their educational value. It is because of the plants that you do not have to change water in an aquarium.

To human beings plants are used around the house for decorative purposes; in the aquarium they serve the same ornamental purpose plus a more valuable one, that of furnishing oxygen to the fish.

We have listed only those plants which we know from experience are the best for the purpose. Plants shipped are divided into two classes: those with roots and crowns which must be rooted in sand, and others which are shipped as bunched plants. These can be separated and the stems anchored in the sand and readily take root. At times immediately after planting the water may assume a cloudy appearance, but as the plants grow this coloration will disappear.

By a balanced aquarium is meant a tank in which the air surface of the water supplemented by plants will supply sufficient oxygen for the needs of the fish to be maintained therein. Also a well balanced aquarium, the plants and scavengers will consume most of the refuse from the fish, making the changing of the water in the tank unnecessary, although enough fresh water should be added from time to time to compensate for evaporation.

GET ACQUAINTED WITH HYGROPHILA

This plant adapts itself readily to aquarium conditions. A fast growing plant with long strap like leaves. Hygrophila is so attractive that it should be an addition to every aquarium.

PER BUNCH

35c

HAVE A GOOD SUPPLY OF PLANTS IN THE AQUARIUM. MORE THAN HALF THE BEAUTY OF AN AQUARIUM IS IN ITS PLANTING.

Listing now two of the most popular varieties—**VALLISNERIA SPIRALES**—(Eel grass). This plant in moderately good light multiplies rapidly and forms a dense growth. It is one of the best oxygenators. 5 for 25c; 50c per dozen.

VALLISNERIA "CORKSCREW"—A variation with spiral formation of its leaves. Very desirable as it only grows to the top of the water. 5 for 25c; 50c per dozen.

VARIEGATED VALLISNERIA—A broad leaf variety excellent for larger size aquaria. 2 for 25c

SAGITTARIA—AN OLD BUT USEFUL PLANT, IT HAS GRASS LIKE FORM AND PROPAGATES BY RUNNERS.

SAGITTARIA SINENSIS—This variety generally grows from 6 to 12 inches, one of our best items. 10c each; 3 for 25c.

SAGITTARIA SUBULATA—Its leaves are narrow and thick and dark green. Plant propagates rapidly, leaves, 4 to 10 inches long. 3 for 15c—50c per dozen

SAGITTARIA MICROFOLIA—Excellent for front planting, dwarf variety grows 2 to 3 inches in height. 4 for 25c

SAGITTARIA PUSILLA—A very desirable variety for small tanks. 5c each; 50c per dozen.

TOO—THE AQUARIUM GARDEN IS ONE OF THE MOST ATTRACTIVE OF ADDITIONS TO THE LIVING ROOM OR THE DINING ROOM. IT IS AN OUTSTANDINGLY DIFFERENT TYPE OF FURNITURE AND BEAUTIFULLY TAKES ITS PLACE WITH THE SCHEME OF DESIGN.

Plants for special purposes.
Choice varieties to add to the aquarium.

AMBULIA—A new plant similar in appearance to Cabomba—but much more satisfactory to use in aquarium—light green plant. 35c per bunch.

BANANA PLANTS—An aquatic oddity and easy to grow—a real curiosity—just place it in the tank and watch it grow. 20c each.

CARDIMINE—Round sage green leaves. Per bunch 25c.

CELLOPHANE PLANT—Have leaves of beautiful (cellophane)—green—plants are attractive as center plant; from Honduras. Medium plants 25c—Large plants 50c.

WHILE IT IS ADVISABLE TO GIVE THE FISH AS MUCH SPACE AND NATURAL SURROUNDING AS POSSIBLE YET ONE SHOULD NOT CONDEMN THOSE THAT DO NOT HAVE THE SPACE TO MAINTAIN A LARGE OUTFIT AND HAVE THEIR FISH IN A GLOBE—MILLIONS OF FISH ARE KEPT AND MAINTAINED IN THESE GOLDFISH GLOBES—WITH COMPLETE SUCCESS.

Anacharis—Cabomba—Dwarf Anacharis
Ludwigia—Green Myrio

The varieties of the above list of plants are in separate bunches.

15c Per Bunch

THE ABOVE PLANTS ARE BUNCHED—THESE VARIETIES ARE SUITABLE TO USE IN GOLDFISH GLOBES OR CAN BE USED IN TROPICAL AQUARIA—BY GENTLY ANCHORING IN THE SAND OR GRAVEL.

FLOATING PLANTS—Duckweed, Salvinia, Azolla, Riccia assorted. 25c per portion

AMAZON SWORD PLANT—A gorgeous aquatic plant. Large leaves, bright green varying in shade, depending on light. Excellent as a centerpiece plant. Young plants are produced by runners. 75c each

DWARF AQUARIUM LILY—A true Water Lily that grows well in sand in the aquarium. 45c per plant.

FLOATING WATER FERN—This is an interesting plant. Grows anywhere in size from an inch to 2 feet in diameter, according to the conditions under which it is kept. It is viviparous, the young plants forming in large plant leaves. 10c per plant.

FOUR LEAF CLOVER. per portion 25c

HAIR GRASS—We now have two varieties of this plant. Floating Variety—that can be planted or allowed to float. Another variety that stays dwarf—which grows about three inches tall. 20c per portion.

SPATTERDOCK, SOUTHERN—Beautiful, fan-shaped leaves, needs good light. 20c each

SPATTERDOCK, TROPICAL—A wide, round-leaf variety that is very attractive. 20c each

SAG. GUAYANENSES—Oval, wide leaved, center plant. Requires a bright light. 25c

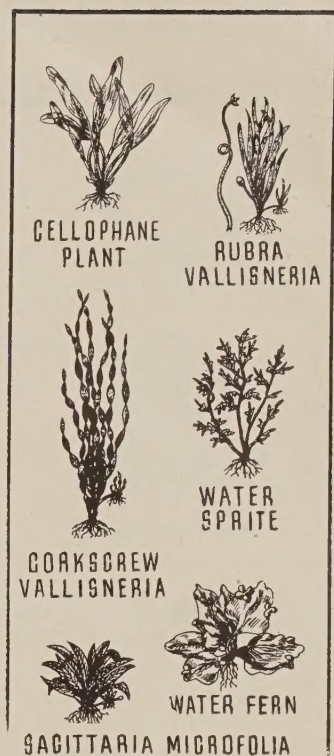

WATER SPRITE—Long graceful fronds spread fanlike in the water. A very desirable plant. Interesting to watch the young plants form on the old leaves. Small size plants 15c each; large size 25c each.

WATER ORCHID—A beautiful shaped subaquatic—grows under shaded conditions. Sometimes produce flowers. Per plant 35c

AQUATIC LIFE HAS UNTOLD VALUES IN THE INDOORS AND BE IT IN THE HOME OR IN THE OFFICE, IN THE SICK ROOM—THE UNUSUAL AMOUNT OF PLEASURE RECEIVED FROM AN AQUARIUM OFFSETS WHAT LITTLE EFFORT MUST BE MADE FOR THE UPKEEP. LITTLE DIFFICULTY IS HAD IN MAINTAINING AN AQUATIC GARDEN ONCE IT IS ESTABLISHED.

PLANTS SHOULD HAVE 8 TO 10 HOURS—GOOD NATURAL LIGHT. IF IN A POOR POSITION FOR LIGHT AN ELECTRIC LIGHT MUST BE SUBSTITUTED. THIS IS DONE BY PLACING A REFLECTOR ON THE TOP OF THE AQUARIUM—GIVING THE PLANTS 8 TO 10 HOURS OF THIS ARTIFICIAL LIGHT. THIS WILL GROW PLANTS AS WELL AS NATURAL LIGHT.

ALL PLANTS REGARDLESS OF THE SIZE OF AN ORDER MUST BE PACKED CAREFULLY TO INSURE AGAINST DAMAGE DUE TO DRYING OUT, ROUGH HANDLING AND COLD. THE BULK OF THE WEIGHT IS IN THE WET PACKING.

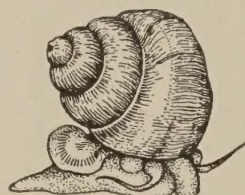

SCAVENGERS . . .

for the Aquarium

AUSTRALIAN SNAIL

JAPANESE SNAIL

RED RAMSHORN SNAIL

FOUR HORNED SNAIL

POND SNAIL

BLACK RAMSHORN SNAIL

Be sure to have some scavengers in your aquarium. Scavengers consume the excrements of the fish, in fact any and all refuse which they find in the aquarium, and thus keep the water clean and in excellent condition. Scavengers placed by themselves in an aquarium are very interesting to watch. The Japanese Snails bring forth their young alive. The Water Newts and Turtles, while not as useful as Scavengers, are very entertaining.

NEW PHILLIPINE SNAIL—"Horn of Plenty"—a pygmy snail of dark brown color—live bearing—very prolific. I regard this snail very highly—in maintaining an aquatic garden for its ability to eat up excess food—
2 for **25c**—**\$1.00** per dozen

FOUR HORNED SNAILS (*Ampullaris Cuprina*) A very interesting and useful scavenger for aquarium uses. A real attraction. The snail lays eggs above the water level. They deposit between 200 and 300 eggs in one bunch. Medium size snails 2 for **25c**, **\$1.00** dozen—Large Breeder size 2 for **75c**

FOUR HORNED SNAILS EGGS—We can supply these eggs. They come in a nest. These small snails are easy to hatch. There are approximately 200 to 300 in a nest. Direction with order. Price **\$1.00**

TRAP DOOR SNAILS (*Viviparus Malleatus*) Originally from Japan but now raised in this country. The sexes are separate in this variety.
Extra large selected **35c** per pair—assorted sizes 2 for **25c**—**\$1.00** per dozen

BLACK RAMSHORN SNAILS (*Planorbis Rubrum*). They are prolific, spawning from October to June.
Extra large size selected 2 for **20c**—assorted sizes 6 for **50c**

RED AUSTRALIAN SNAILS—a dwarf variety that is very prolific—egg layer.
3 for **25c**

RED RAMSHORN SNAILS (*Isarora Proteus*). An active worker, egg laying variety.
Breeding size, 2 for **35c**

POND SNAILS (*Physa*). Small, 6 for **25c**

FRESH WATER CLAMS. (Mussels) 2 for **25c**—**\$1.00** per dozen

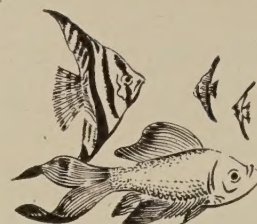

BABY TURTLES. Little fellows about two inches across, with mosaic designs on their upper and lower shells. These little fellows should be fed—Turtle food—fresh lettuce and white worms.
2 for **75c**

AMERICAN NEWT or SALAMANDER. Each **35c**—6 for **\$1.50**

SCAVENGERS COLLECTIONS ARE LISTED ON PAGE 9.

TROPICAL FISH

FOR THE AQUARIUM

To accommodate our customers we are listing this season some of the varieties we carry in stock and will ship them under the following terms.

TERMS

Due to uncertain shipping conditions and handling enroute we will ship tropical fish only at customers risk and will not guarantee live arrival.

We will ship tropical fish only in months from March to November. No order accepted over 1000 miles shipping distance from Loveland, Ohio. Minimum order \$3.00 or more; include \$1.00 extra for packing and can charge (returnable for 50c credit.)

If shipment arrives in bad condition notify Express Office, Bad Claim Dept. and file your own claim.

THERE IS SOMETHING ABOUT AN AQUARIUM

In your home, in the office, or in the school, an aquarium provides an enduring and educational hobby that is fascinating to both young and old. Here is pleasure and relaxation from observation of your finned pets; pleasure of which you will never tire. Here is nature at your elbow; in your aquarium an ever changing panorama of undersea life and beauty. Vivid rainbow colored fish of odd shapes and sizes contrasted beautifully against the peaceful green background of graceful aquatic plants arranged to suit your own aquascaping desires. Watch them live, watch them grow!

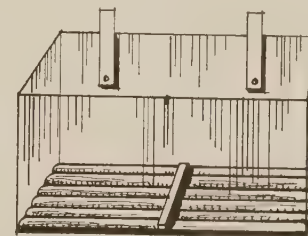

To those of you who have friends who own an aquarium that you have admired or aspired to own one like it, our catalog, we hope, may be the key opening the door to hours and even years of untold beauty, pleasure, and relaxation in your own home.

ANGLE IRON FRAME

This aquarium represents the greatest value to be secured. Of pleasing dimensions, with frame rigidly and staunchly constructed of 1" angle iron. Beautifully japanned in olive green.

	Width	Length	Height	
No. AJ 15	12	30	12	15 gal. \$20.00
AJ 20	14	30	14	21 gal. 25.00

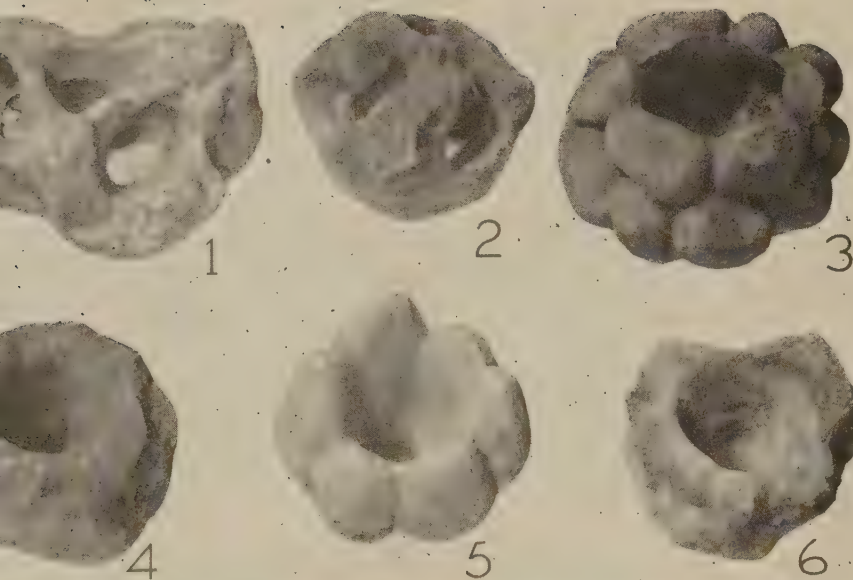

BREEDING TRAPS

Save those babies! Two different styles. V bottom for the live bearers, square bottom for the egg layers, made of lucite with hooks to suspend trap in the aquarium. Fry will drop through slits in the bottom.

V shape	\$1.75
Square—4x4x8"	2.00
Square—4x4x12"	3.00
Square—4x4x16"	4.00

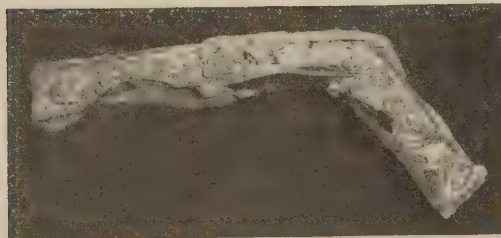

PLANTING POTS

Useful and attractive in small aquarium—Plant and Plants in the Pots—In larger aquariums—for planting such plants as Amazon Sword Plants, Cryptocorynes. Made of a special cement.

- No. 1—4 holes for planting Anacharis, Cabomba, Ambulia—Can also be used for house plants such as Succulents and Cacti
3" high, 4½" wide, 5½" long each 75c
- No. 2—2 holes 3" high, 3" diameter each 50c
- No. 3—5" diameter, 3" high each 50c
- No. 4—4" diameter, 2" high each 35c
- No. 5—3½" diameter, 3" high each 35c
- No. 6—3½" diameter, 2½" high each 35c

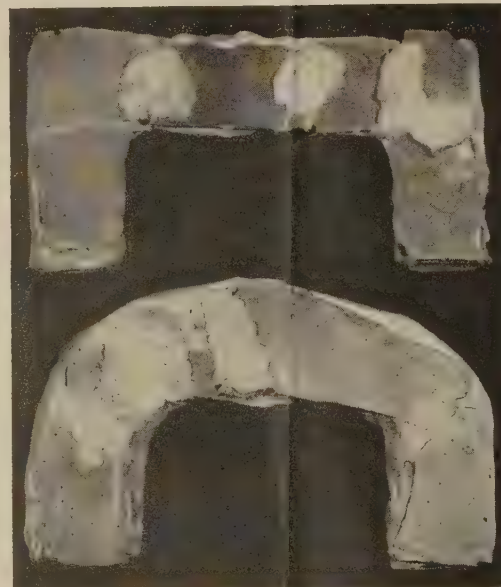

GRAVEL GUARDS

This style guard is constructed of cement in blended colors with slate or other rocks, and blends in naturally with the plants. We have used this type in our own show tanks for years. Customers have admired them.

- No. GG3 for use in aquarium 2 or 3 gallon about 6 inches long 25c
- GG4 for 5 gallon about 8 inches long 35c
- GG5 for 10 gallon about 10 inches long 50c
- GG6 for 15 to 20 gallon about 12 inches long 75c

Gravel guards, or food guards are both ornamental and useful. They assist in arrangement and set off aquarium plants to better advantage. If gravel is placed, flush with back of guards and one inch higher at back of aquarium, most of the dirt will accumulate in front of guard and can be easily syphoned off.

The above guards are for larger size aquaria of sturdy construction, made of plain cement and slate, length about 11 inches, depth 5 inches, weight about 4 pounds. Shipped only by express.

- GG7 square style \$1.00 each
- GG8 round style 1.00 each

The above illustrated guard to be used in 2 to 5 gal. size aquarium.

- No. G. G. 1 6¾" wide by 3¼" deep 35c Ea.
- No. G. G. 2 Same size but crescent shape 35c Ea.

ORNAMENTAL CLAY CASTLES

- No. 1—Coral—4¾" high each 50c
- No. 2—Castle—3¾" high each 50c
- No. 3—Castle—3¾" high each 50c
- No. 4—Castle—3¾" high each 50c
- No. 5—Mermaid 3" high each 50c

Aquarium Collections That Are Complete

THESE COLLECTIONS ARE OFFERED AS COMPLETE AQUATIC UNITS—LISTING SUCH ITEMS AS AQUARIUMS, FISH, PLANTS, SCAVENGERS, AND ACCESSORIES GROUPED TOGETHER AT ONE ADVANTAGEOUS PRICE:

COL. NO. C. A. 15—Consists of Col. No. A5, (aquatic plants)—A snail assortment No. S-10—a large size gravel guard—(15 in.) 25 lb. sack of gravel—a large dip net—1 box fish food—1 bottle Pararemedy—medicated ball.

Price Complete **\$5.75**

COL. NO. C. A. 115—Consists of a 15 gallon Stainless Steel Aquarium and Col. No. C. A. 15. Above complete collection.

Price complete **\$19.50**

COL. NO. C. A. 10—Consists of aquatic plant Col. A-4—Snail assortment No. S-10—A medium size gravel guard, 15 lb. sack gravel—a large dip net—box fish food—bottle Pararemedy—medicated ball.

Price complete **\$4.75**

COL. NO. C. A. 100—Consists of 10 gallon Stainless Steel Aquarium. No. A. C. 10 and Col. No. C. A. 10 above complete collection.

Price complete **\$14.50**

COL. NO. C. A. 100-0—Consists of 10 gallon aquaria. No. A. O. 10 and Col. No. C. A. 10.

Price complete **\$12.50**

COL. NO. C. A. 8—Consists of aquatic plant Col. No. A-3—collection of snails No. S-10—a gravel guard to fit—a 10 lb. sack gravel—dip net—can of fish food—bottle of Remedy—medicated ball.

Complete assortment **\$4.00**

COL. NO. C. A. 180—Consists of 8 gal. Aquarium Stainless Steel No. A. C. 8 and above Collection No. C. A. 8.

Price complete **\$11.50**

COL. NO. C. A. 5—Consists of aquatic plant Col. No. A-2—Six assorted snails—a 5 lb. sack of gravel—dip net—can of fish food—bottle of Remedy—medicated ball.

Complete collection **\$3.00**

COL. NO. C. A. 150—Consists of 5 gal. Aquarium No. AC5 Stainless Steel and Col. No. CA5 above collection.

Price complete **\$8.50**

Col. No. C. A. 150-0—Consists of 5 gal. Aquaria No. AO 5.

Price complete **\$7.50**

COL. NO. C. A. 20—Consists of Collection No. A1. Aquatic Plants. Two Pair snails, small size gravel guard, Sufficient gravel, dip net, 1 box fish food, 1 bottle Pararemedy, 1 Medicated H1 Balls.

Price complete **\$2.25**

COL. NO. C. A. 200—Consists of 2 gal. Stainless Steel Aquarium No. AC2 and above collection No. C. A. 20.

Price complete **\$5.00**

With two pair Trinidad Guppies..... **\$6.00**

With one Male Betta (Siamese fighting fish)..... **7.00**

All the Aquariums—with Complete Assortments are shipped only by Express—Express charges collect.

If tropicals or goldfish are desired with above assortments for the ten and fifteen gallon aquarium we suggest Col. No. F-1—F-2 or F-4 Tropical Fish or Goldfish Collection No. G-3.

For the 8 gal. aquarium—we have a collection of goldfish—G-1 10 asst. fish—\$1.75—Tropical Live Bearing Fish F-5 10 fish for \$2.00.

For the 5 gal. aquarium—we can assort you 6 goldfish Col. G-10 for \$1.25.

If Tropical Fish—are to be used in the above aquarium—a Thermostat and heater are suggested as necessities; for the fifteen gal. aquarium—a 50 watt or 75 watt—10 inch heater for the 8 or 10 gal.—a 25 watt or 50 watt for the five gal. a 25 watt heater.

JOJO PRODUCT GROTTO AQUARIUM ORNAMENT

Here is the aquarium ornament you have been looking for. An artistically made, natural looking, castle-like, grotto 12 inches long, 6 inches high. Here is an ornament that will blend well with the natural surroundings in your aquarium. Price **\$4.75**.

Sent only by Express

SUNRISE COLLECTION

From one of our own Show tanks this Collection has been admired by everyone who has seen it. During the two years we have had it growing here many visitors have purchased a similar assortment of plants for their own Aquariums.

We are offering it now as a special Collection suitable for planting in 15 gallon Aquariums.

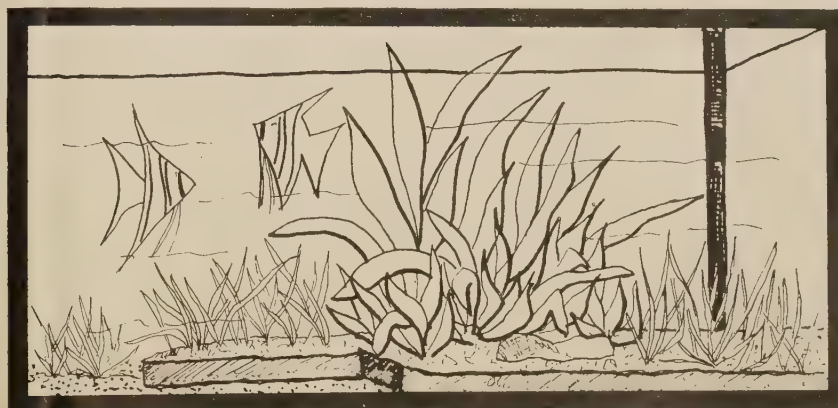

Includes:

12 Cryptocoryne Cordota

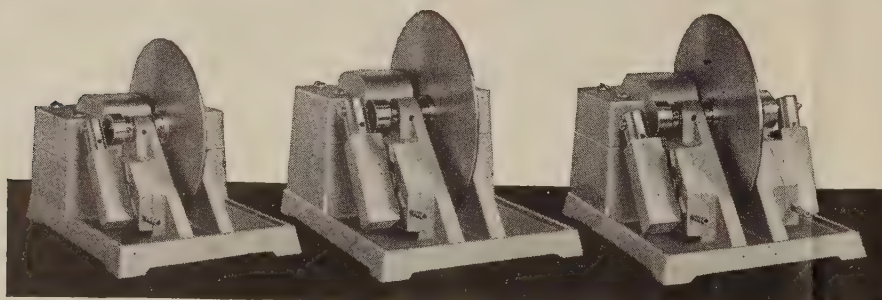

24 Sagittaria Microfolia

COLLECTION PRICE

\$4.75

AERATION The Mark of Distinction of The Real Aquarist

WHY AN AIR PUMP?

In your aquarium, with one of our air pumps, you can safely double the number of fish. Growth of fish and plants is stimulated noticeably. Aeration brings out more of the natural color and beauty of your finny pets. And in breeding, all important to heavy producers as the egg layers, the fry will be bred stronger and grow more rapidly.

MARCO-AERATING SPECIALTIES

Marco Air Pump—

Standard Model A (For 12 Releasers—20 Watts).....	\$25.00
Standard Model B (For 24 Releasers—26 Watts).....	30.00
Standard Model B-2 (For 36 Releasers—32 Watts).....	35.00

Marco Valves

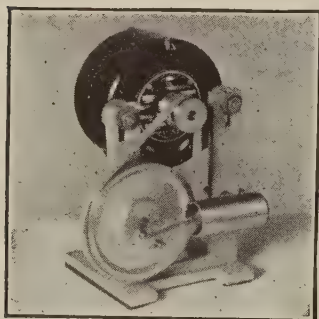

For rubber tubing.....	1.00
For 1/8" iron or brass pipe.....	.90

DIVER

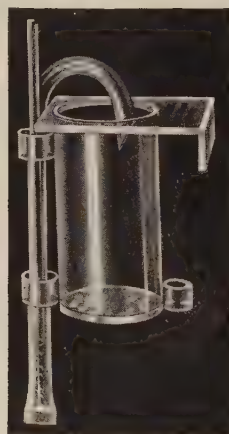

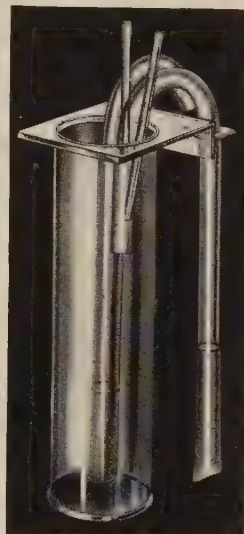

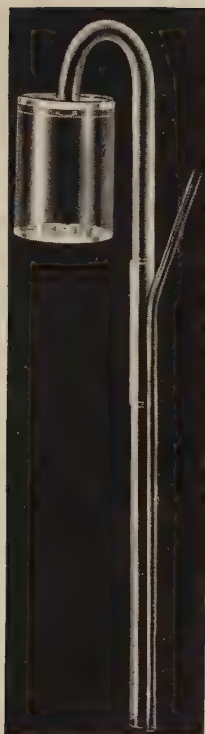

Adds that final realistic — undersea touch — aerating stone in helmet.

\$2.00

FILTRATION

FOR CRYSTAL CLEAR AQUARIUMS
HEALTHIER FISH—BEAUTIFUL PLANTS

POWER DIP TUBE—Something new and useful. Attached to and powered by the air pump. Eliminates the removal of water from the tank. Waste is carried into the filter cup and is retained there by the filter material while the water is forced back into the tank.

Price \$2.75 each

SENIOR PLASTIC TUBULAR FILTER—Will filter 480 gal. water in 24 hours—8 inches high Complete \$5.00

JUNIOR PLASTIC TUBULAR FILTER—Will filter 380 gal. water in 24 hours—6 inches high. Complete \$4.75

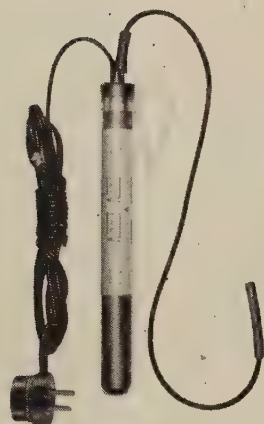

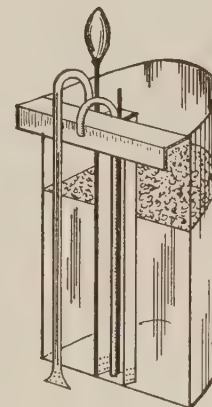

OUTSIDE PLASTIC FILTERS—All celluloid unbreakable construction. Complete with two stems. Rubber ball starter. Glass wool and Charcoal. Filter Sr. size 8½ inches high—5 inches long—¾ inch width. Price \$5.50

All Outside Filters complete with charcoal and glass wool.

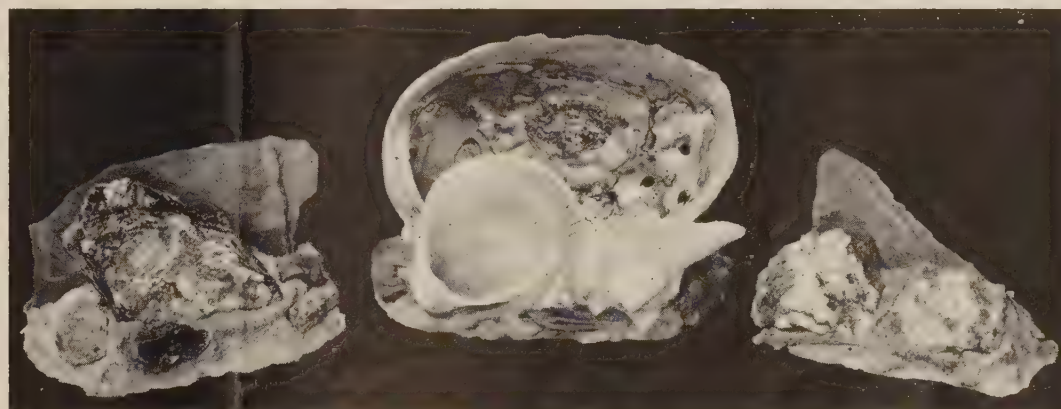

INSIDE PLASTIC FILTER—Tubular—an easy to operate—efficient filter—Complete with glass wool. \$4.00

INSIDE PLASTIC FILTER—Square—fits neatly in the corner. \$4.00

All these Filters need an Aerator to operate.

AQUA AIRE—is a thermal style aerator that will aerate adequately the usual type home aquarium—six month guarantee. Lucite clip—five feet of approved wire with plug. \$2.98

No. 1

No. 2

No. 3

ARTISTIC AIR RELEASERS—These beautiful ornaments are so constructed to conceal an air stone. The air bubbles come from behind the ornament. The air stone is hidden.

No. 1—About 5½" high, 7" long.....\$1.00

No. 2—About 7" high, 8" long.....2.00

No. 3—About 4½" high, 6" long......75

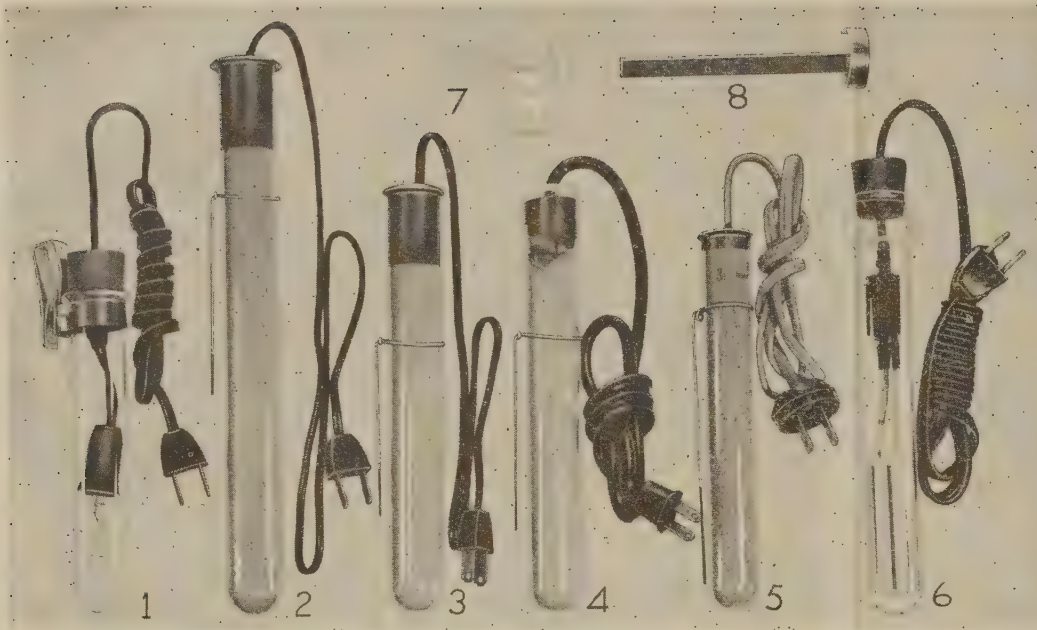

As these are hand made, no two are exactly alike.

AIR-CONTROL

An air filter and out-let valve control; enables you to control and filter the air from your pump to releasers and filter. Guaranteed non-corrosive; made of brass, stainless steel, and durable rubber. All in one unit. Price each \$4.00

HEATERS

HEATERS AS PICTURED ABOVE

1. **GLO-LITE HEATER**—A combination chill breaker and aquarium light to heat and illuminate a small tank (2 to 5 gallons) at the same time at a very low cost. Comes with asbestos shade (Not shown in picture) to control amount of light. Six inch glass tube price each **\$1.50**.

2. **RENOYLENE HEATER**—Pyrex tube with non-corrosive metal holder. Heating element of Grade A chrome steel to insure high safety factors.
10 inch Tube, 25-50-75 watt, each **\$1.75**.
10 inch Tube, 100 watt, each **\$2.00**.

3. **RENOYLENE HEATER**—Same as No. 2 in an 8 inch Pyrex tube. 8 inch tube 15-25-50-75 watt, each **\$1.65**.

(BE SURE TO STATE WATTAGE DESIRED ON ORDER)

4. **LOVELAND HEATER**—This type of heater may be completely submerged or place on the bottom of aquarium if desired. Absolutely water proof; sealed with live rubber; heavy duty water proof cord 36 inches long to allow heater to lie on bottom where the water is the coldest to give better distribution of heat.

6 inch Pyrex tube, 12½ and 25 watt, each **\$2.50**.
8 inch Pyrex tube, 25-50-75 watt, each **\$2.75**
10 inch Pyrex tube, 125 watts, each **\$3.25**
These heaters can be furnished on special order in 150-175-200-250 watts at \$4.00 each.

5. **ECON-O-HEATER**—Servicable heating at economy cost. A good heater at a new low price. Nichrome heating unit; metal clamp holder.

7 inch Pyrex tube, 10-20-30-40 watts, each **\$1.50**
7 inch ordinary glass tube, 10-20 watts only, each **\$1.35**

BIRG THERMOSTAT—Temperature range 70° F. to 100° Outside top adjustment knob. Controls up to 600 watts combined heaters. Guaranteed for one year. 3½ foot lead cord with 3 way connection for pilot light and heaters. each **\$4.95**
(Pilot light if desired 35c extra)

BIRG THIN ROD HEATER—A single thin glass tube—new idea in heating aquariums.
8 inch, 25-50 watt, each **\$2.00**
10 inch, 25-50 watt, each **\$2.25**

ADJUSTABLE HEATER—Adjustable type heater that you can safely adjust from 20 watts to 80 watts. Can be used in connection with any thermostat. Outside top adjustment. Each **\$3.75**

OTHER AQUARIUM EQUIPMENT

Aeration	Page 14
Filtration	Page 15
Thermostats	Page 17
Accessories	Page 18
Ornaments	Page 12

A good heater and thermostat is a small expenditure that will more than pay for itself by the fish that didn't die. Since most aquarium fatalities are caused by temperature fluctuations, a heater in cold weather is practically a must. Automatically controlled heaters are perhaps the greatest benefit ever devised for the tropical aquarium. For a healthy aquarium the water should be maintained at a temperature of at least 70° F. For spawning egg layers or nursing sick fish the temperature should be gradually raised to 80° or 85° F.

NOTE: A heater without a thermostat is not automatic. It will operate continually as long as it is plugged in or the electricity turned on.

All Heaters are guaranteed for one year—except against glass breakage.

We recommend the following size heaters for your aquariums:

2 to 5 gallons Glo-Lite, 12½ watt or 15 watt
5 to 10 gallons, 25 watts
10 to 15 gallons, 50 watts
15 to 20 gallons, 75 watts
20 to 30 gallons, 75 to 100 watts
30 gallons, 125 watts or more

We strongly advise using a thermostat and pilot light on all aquarium heaters; for safety and economy.

6. **SIMPLEX COMBINATION HEATER AND THERMOSTAT**—The arrangement of the heating element, thermostat, and radio static eliminator in a single pyrex tube make this unit very simple and space saving. The solid heating unit is practically everlasting and being at the bottom of a long tube gives good bottom heat.
8 inch tube, 40 watt, each **\$4.00**
10 inch tube, 50 watt, each **\$4.25**
10 inch tube, 75 watt, each **\$4.50**

"OUT OF SIGHT" HEATER—A new heater for the aquarist who does not fancy a heater tube competing with the naturalness of his aquarium. This heater so thin a plant of Valisneria will hide it. Dual glass tube.

10 inch, 25-40-50 watt, each **\$2.25**.

Heaters need a Thermostat to operate automatically.

THERMOSTATS

A thermostat will not heat the water. A thermostat is an electrically controlled automatic switch that will turn the aquarium heater on or off at whatever temperature it is set for, thus maintaining a constant water temperature. When shipped all thermostats are set for 74° F. All are adjustable and come with directions for regulating. Thermostats are economical in that they save electricity, they operate only when the water temperature drops below desired setting. A single thermostat will control several heaters if the aquariums are exposed to approximately the same room temperature.

All Thermostats are fully guaranteed for one year by manufacturer.

No. 1. RENOYLENE THERMOSTAT—Easily adjusted. Due to the unique construction, snap action shut off is obtained, thereby reducing all objectionable radio interference to a minimum. Will accommodate several heaters up to 250 watts. Six foot rubber lead cord with 3 way connection and monel-metal clip holder. 8 inch tube. each **\$3.00**

(Pilot lights, if desired, 35c extra)

No. 2 SIMPLEX THERMOSTAT—Built-in radio interference eliminator. Will accommodate several heaters up to combined wattage of 300 watts. 4½ foot cord with 3 way connection for pilot light and additional heaters; inside adjustment, aluminum clip holder. 8 inch tube. each **\$3.25**

(Pilot light, if desired, 35c extra)

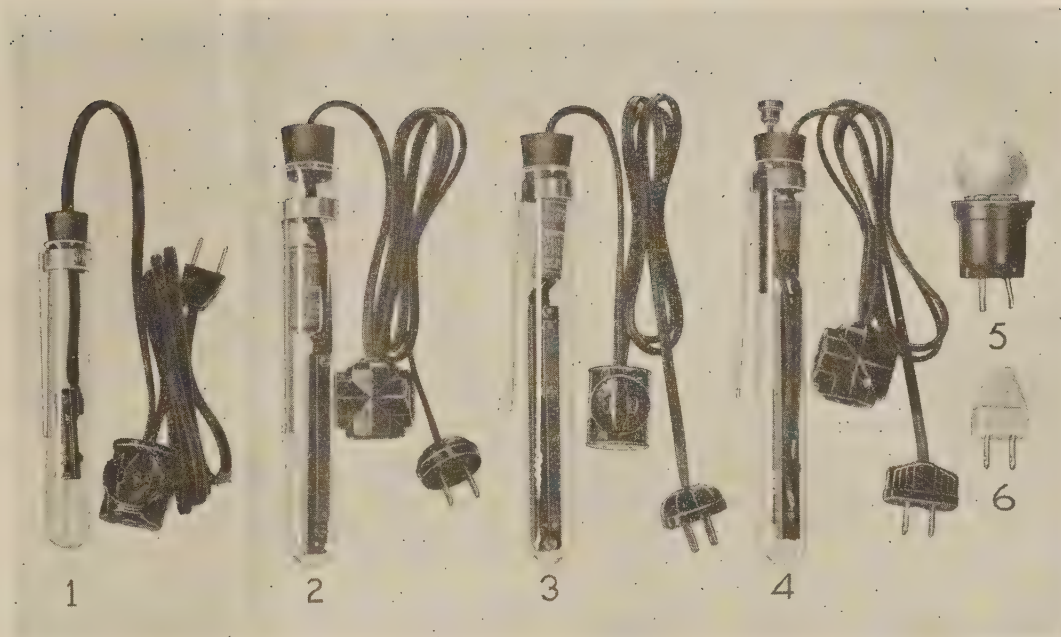

THERMOSTATIC HEATER

A thermostatically controlled heater in a low price range for those aquarists who wish automatic heat control in one tank only. Thermostat and heater are held to side of aquarium by a clear lucite holder; no parts to corrode. Elements are laboratory tested for efficient economical operation.

40 watts **\$3.85**

75 watts **\$3.95**

No. 3. DUPLEX THERMOSTAT—Designed for safety. Two separate thermostat units so arranged that either unit will shut off heaters. One unit is set for 75° F, if it fails to turn off heaters the other unit will shut off at 80° F. (Both units are adjustable.) Built in radio condenser to eliminate static, 3 way plug, 4½ foot lead cord, will accommodate combined heaters up to 300 watts. 8 inch tube. each **\$6.00**

(Pilot light, if desired, 35c extra)

No. 4. OUTSIDE ADJUSTMENT THERMOSTAT—Knob on top permits easy outside adjustment. Will accommodate several heaters up to 500 watts. Built in static eliminator, 3 way plug, 4½ foot lead cord, aluminum clip holder. 8 inch tube. each **\$4.95**

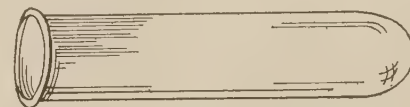

(Pilot light, if desired, 35c extra)

No. 5. PILOT LIGHT—Bulb and plug in socket to plug in thermostat connection. When heater is on the light is on, goes off when thermostat shuts off heater; makes thermostat adjustment simple, an indicator to show when heater is on. each **35c**

No. 6. PILOT LIGHT—Long lasting neon-activated light. Complete unit only 1½ inches. Plugs into thermostat connection. each **35c**

No. 7. LUCITE CLAMP—To replace worn or broken heater and thermostat clamps. Designed to fit any standard heater or thermostat tube on any standard aquarium frame. each **40c**

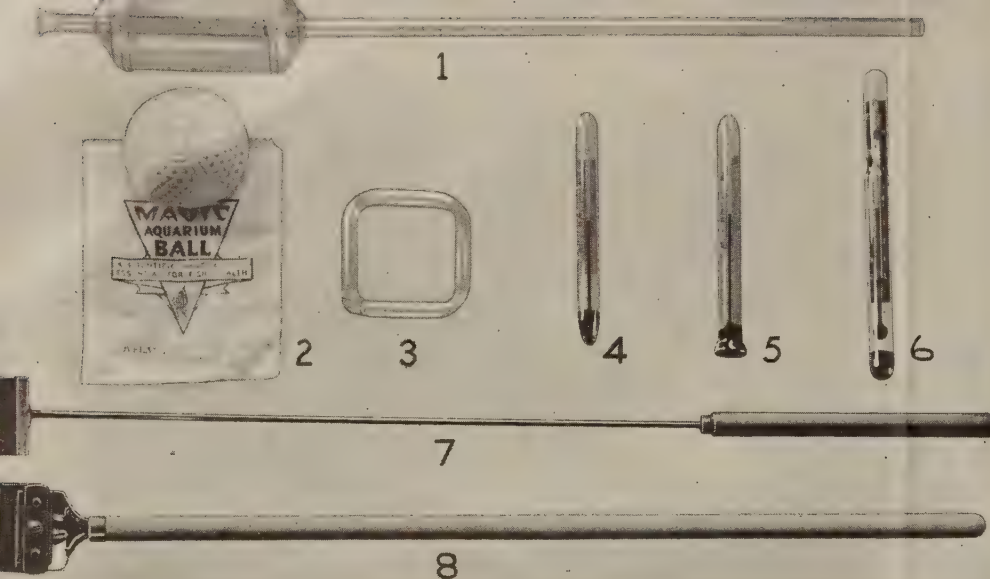

No. 8. METAL CLAMP—Made of guaranteed non-corrosive metal to fit standard tubes, may be bent to fit any aquarium frame. each **25c**

No. 9. Pyrex Tubes—To replace broken thermostat or heater tubes. These tubes come in 6, 8 and 10 inch lengths to fit most heaters and thermostats. 1"x10"—**35c**; 1"x8"—**25c**; ¾"x6"—**20c**

No. 10. HEATER SEALING COMPOUND—1 oz. can to seal at least two heaters. Easy to use and any that is left may be kept indefinitely for future use. **15c** per can

No. 11. HEATING ELEMENTS—To replace worn heating units made in 5 sizes, 10, 20, 30, 40, and 50 watts. Ready to attach to cord. each **35c**

Aquarium Necessities

1. **PLASTIC DIP TUBE**—To clean the refuse off the bottom of your aquarium. Put the large end into the aquarium over the sediment you wish to remove; keep finger over top of other end; remove finger—Presto! the dirt is sucked into the siphon. Replace your finger, remove dip tube, and pour out water and refuse.

18 inches long each **\$1.00**

24 inches long each **\$1.25**

GLASS DIP TUBE—12" size **25c**; 14" size **35c**; 16" size **50c**

2. **MEDICATED AQUARIUM BALLS**—A scientific neutralizer essential for fish health. To reduce and prevent acid conditions in your aquarium.

Price 3 for **25c**

3. **FEEDING RINGS**—Prevents food from spreading over the entire aquarium. When used fish will become so tame that they will rush to the feeding ring when they see you coming with the food.

Square 2 1/4 x 2 1/4 Inches each **25c**

Rectangular 2x4 Inches each **35c**

PLASTIC FEEDING RINGS—Similar to picture but made of unbreakable plastic. Can be used for dry or live food. each **75c**

THERMOMETERS—An absolute necessity in any aquarium. Easy to read and guaranteed to be accurate within 2 degrees. As pictured above.

4. **SPEED POINT** each **35c**

5. **STANDING** each **35c**

6. **LARGE FLOATING** each **35c**

AQUARIUM SCRAPERS—For removing algae and cleaning the inside aquarium glass.

7. **MONEL METAL**—Rust proof 15 inches long each **65c**

MONEL METAL—Rust proof 20 inches long each **75c**

8. **WOOD HANDLE SCRAPER**—18 inches long each **50c**

FISH NETS—Indispensable for every aquarist and fish fancier. For gold or Tropical fish—Wire handles.

N 1—3 inch Triangular net **15c**

N 2—4 inch Triangular net **25c**

For gold or tropical fish. All nets with wire handles.

N 3—6 inch Triangular net **35c**

N 4—4x5 inch size **35c**

N 5—5x8 inch **50c**

N 6—7x10 inch for large tanks **75c**

GLASSIES—large one inch size marbles in assorted colors. Very decorative. 12 for **25c**; 100 for **\$1.50**

AQUARIUM CEMENT—PE-CO-RA—A product that can't be beat for repairing broken aquariums or constructing new ones. Easy to work with; a black cement ready for immediate use; directions on can.

1 pound can **50c**; 5 pound can (SHIPPED EXPRESS COLLECT) **\$1.65**

LIQUID PLASTIC CEMENT—To repair minor leaks in the aquarium. 1 pound can **25c**

Ancient Galeon **\$2.00**

The Coin Chest **1.00**

The Pirate Opened Chest **.65**

Plain Chest (not illustrated) **.40**

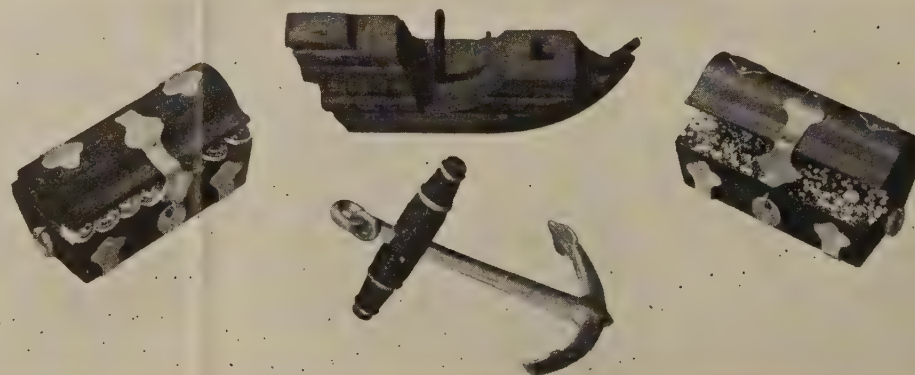

The Jeweled Chest large **.65**

small **.60**

The large Anchor **.60**

small **.20**

Collection No. DT-100 for Ten Gallon only \$3.50.

Collection No. DT-150 for Fifteen Gallon only \$5.00.

THE ABOVE COLLECTIONS CAN BE SHIPPED PARCEL POST

The Insectivorous Plants and Other Bog Plants

BT-1 SARRACENIA, Minor—A tall growing plant. One of the insectivorous plants. Captures the insects in long pitcher like leaves and imprisons them. They are gradually then absorbed into the plant itself. 35c each

BT-2 SARRACENIA, Flava—A tall growing species. Is yellowish green, with flowers of bright yellow. Pitchers gain a height of two to two and a half feet. 35c each

BT-7

BT-5

BT-3 SARRACENIA, Purpurea—"Pitcher Plant." Produces pitchers which attain a length of from eight to twelve inches, green colored with purple veins, the flowers are borne on stems from one to two feet high. The petals are a bright purple. 35c each

BT-4 SARRACENIA RUBRA—Much the same, but with a more delicate pitcher, and red blooms. 35c each

BT-5 DIONAEA MUSCIPULA—Its leaves are in pairs, joined or hinged at the lower edge. On the upper edge of the leaves is a row of hairs, closing together like a trap. On the inside of the leaves, toward the center, are three sensitive hairs; if touched by an insect or other object, will cause the leaf to close up, imprisoning the insect or other intruder. For this reason it has been given the name "Venus Fly Trap." Every class should have an opportunity to study this plant. 50c each

BT-6

BT-6 DROSERA FILIFORMIS

(Sundews) — Interesting little plant, with long slender leaves, which are covered with little glandular hairs. Flowers are purple rose. It grows to a height of one foot, in a wet swampy ground.

35c each

BT-7 LIVERWORT—Will grow nicely in a terrarium tank. Portion, 35c

BT-8 SPHAGNUM MOSS—Grows well and thrives in the same tank with Pitcher Plants and Sundews. Portion, 25c

These Plants available only—September to March.
